Are you deeply concerned how to protect yourself and your family from polluted air in the city?

OR

Bought a flat and wondering what will give best look, hygiene with low cost and minimal maintenance?

OR

Have a farm and wondering where to get disease-free pure seedlings?

We have answers for all your concerns and queries...

Go through the menu and book your choice of plants – decorative, air purifiers, rare indigenous varieties etc.

Also, the varieties you are looking for if not available right now, we can culture and provide within the time frame committed by us.

Let us know why one opts Tissue Cultured Plants

- Through Tissue culture, we can produce disease-free plants throughout the year irrespective of the season.
- Exact copies of the mother plants are produced which results in uniform fast growth and high yield.
- Many ornamental plants like Syngonium, Philodendron, Aglaonema, Peace lily, etc., are cultured which are in high demand by growers.
- It helps conserve biodiversity by culturing endangered species.

In our Lab, we are concentrating on multiplying the cultures and not altering the structure and trying to conserve endangered varieties.

OUR PRODUCTS

- Decorative/ornamental plants
- Air purifier plants
- Exotic plants

Indoor Air Purifier Plants

There are more than 650 different types of species of air purifier plants. A few are Syngonium, Aloe vera, Areca palm, Spider plant, Money plant, Peace Lily etc.

Their photosynthetic activity (taking in carbon dioxide and leaving out oxygen through leaves at night) puts them under the category of air purifier plants.

We are all longing to breathe fresh air as we are surrounded by polluted air. Having these plants inside our homes, gives us fresh oxygenated air to breathe, reduces foul smell and suffocation, and brings freshness.

Their aesthetic appearance helps us to relax, lowers blood pressure and creates healthy environment at home and at work. Studies have reported that it boosts concentration and productivity by 15%.

These lovely indoor plants will become part of your life and home, gives you company and enhances happiness with their serenity and colour.

It does not seek that much attention, require minimal maintenance and are disease or pathogen free but **please keep in mind that it needs care to be kept out of reach of small children and pets.**

Depending on availability of space, you can choose the variety and species. However, most of these plants are not fast growers and require minimum space.
